Renewable Energy Conference

June 27 - 28, 2017 • Marist College, Poughkeepsie

Paul F. Curran, P.E. BQ Energy

Paul F Curran is the founder and Managing Director at BQ Energy a Poughkeepsie, NY based renewable energy development firm that has been specializing exclusively on siting wind and solar projects on landfills and brownfield sites since 2003. Paul and his colleagues have led the development of several renewable energy projects on brownfields and industrial sites. Projects developed by Paul and his colleagues have received awards and recognition by the US EPA, and several worldwide publications for the sustainable redevelopment of brownfield sites as well as the innovative development practices in the renewable energy industry. Paul is a registered Professional Engineer in the State of New York. Paul holds an MBA from Marist College and degrees in Engineering from Columbia University. He is a member of the Marist School of Management Advisory Council.
