Renewable Energy Conference: A Leadership Forum on Energy Policy
Tuesday, June 26 - Wednesday, June 27 - Poughkeepsie

JOSEPH P. OATES

CON EDISON TRANSMISSION, INC.

Joseph Oates is the Chairman, President and CEO of Con Edison Transmission, a new Con Edison subsidiary that was established in 2016 to invest in electric transmission and natural gas pipeline infrastructure outside of Con Edison's two utility companies. In addition, he serves as Chairman of the Board of Con Edison's Clean Energy Business, which is the fifth largest solar energy producer in the United States. Prior to these roles, Mr. Oates was a Senior Vice President of Shared Services which included the information technology, human resources, supply chain, energy procurement and energy policy functions for Con Edison's two utility companies. Earlier, he held executive positions as Con Edison's treasurer and in energy supply, electric operations and energy policy. He also served in various planning, finance and operations positions of increasing responsibility at Con Edison after joining the company in 1987. Prior to joining Con Edison, Mr. Oates worked at Central Hudson Gas and Electric Corporation in engineering and operations roles.

Mr. Oates serves as Chairman of the Board of the New York Transco, a joint venture of the electric transmission subsidiaries of the New York utility companies that invests in electric transmission infrastructure. He also serves on the boards of Stagecoach Gas Services and Honeoye Gas Storage Corporation, which invest in natural gas pipelines and storage facilities in New York and Pennsylvania.

He served as Chairman of the New York Independent System Operator Management Committee from July 2003 to November 2004. Mr. Oates currently serves on the Board of Trustees and Executive Committee for Arts Westchester, the designated arts council for Westchester County, New York and on the Board of Governors of the Westchester Hills Golf Club in White Plains, NY.

Mr. Oates holds a Masters in Business Administration with a finance concentration from Fordham University and Bachelor and Masters degrees in mechanical engineering from Manhattan College.
