

## Mark Dougherty

Mark Dougherty is Vice President of Operations for Fab 8. Mark joined GLOBALFOUNDRIES after serving in a variety of leadership positions throughout 22 years with IBM in semiconductor operations, engineering and development. After beginning his career with IBM in Burlington, VT, he was part of IBM's 300mm fab start-up leadership team in 2002, with subsequent roles leading manufacturing engineering, equipment maintenance, manufacturing operations, and unit process development. Dougherty holds a Bachelor of Science degree in chemical engineering from Clarkson University.
