For Employers:

Workforce Survey

Get started by sharing your recruitment and professional development challenges.

Choose the industry recognized credentials and training that align with positions in your company's IT and manufacturing positions.

Candidate Matching

Based on your desired skills, find candidates taking courses in our system.

The extensive IT catalogue includes hundreds of courses and certifications by IBM, Microsoft, Cisco, CompTIA, and many more.

In-Depth Consulting

Looking for help? We can meet with you to design hiring and training solutions.

In the manufacturing catalog, the courses range from basic safety and maintenance to more advanced electronic systems, robotics, and Lean Six Sigma.

For Jobseekers:

Update Your Skills
Register online for FREE access to workplace, business, and IT courses.

Explore Career Pathways
40 targeted occupations in manufacturing and IT.

Local Job Postings
Search and apply for jobs in your area, or across New York State.

The Business Council

Goals

Build the workforce pipeline:

- Free skill training to jobseekers
- Engage career centers, community partners to:
  - Increase registrations
  - Provide wraparound services

Align supply and demand:

- Candidate screening
- Pathways for in-demand jobs
- Develop solutions to address hiring needs
