<p>BILL</p> <p>S.6028 (Breslin) / A.6877 (Zebrowski)</p>
<p>SUBJECT</p> <p>Allows Insurers to Dispense With or Defer Inspections of Private Passenger Automobiles Prior to the Provision of Coverage for Physical Damage</p>
<p>DATE</p> <p>May 05, 2022</p>
<p>SUPPORT</p>

The Business Council supports S.6028 (Breslin) / A.6877 (Zebrowski), which would permit auto insurers to waive photo inspections for comprehensive coverage, easing an unnecessary burden on both insurer and insured.

Under existing law, drivers who want to obtain comprehensive or collision coverage must visit an inspection site in person within 14 days of their policy's effective date. Should an insured party fail to get to an inspection site for any reason, coverage must be canceled. With time and resources short for many families, this requirement can become more than a simple inconvenience, it can become a major disruption.

The original photo inspection mandate is over forty years old. Given new technology used for fraud detection and investigation, these inspections, for the purposes of preventing insurance fraud are simply no longer necessary. The flexibility to waive photo inspections has no negative impact on fraud detection and only works to save the public time, money and affordable coverage.

The hallmark of good legislation is that which puts forth policies that recognize advancements in technology while still affording flexibility. This is such a piece of legislation. Common sense and savings for consumers are excellent outcomes to this bill.

It is for these reasons that The Business Council supports S.6028 (Breslin) / A.6877 (Zebrowski) and urges its passage by the Senate.
