

JUNE 2022

2022 BUSINESS WORKFORCE SURVEY RESULTS

WE ARE YOUR DOL

Transforming New York's World of Work

OVERVIEW

In March 2021, The Business Council teamed up with the New York State Department of Labor to survey thousands of businesses on the challenges and needs in a world deeply changed by COVID. The results continue to shape workforce development practices and policy from the p-12 system to higher education and among training providers across New York State.

In May 2022, the Department of Labor again partnered with The Business Council and with Empire State Development and the Regional Economic Development Councils to gather real-time feedback on the state of the workforce and the needs of businesses in 2022.

As with the previous survey, most survey questions were optional, but businesses were encouraged to answer as many as possible. Percentages listed represent a percentage of the total participants for that individual question, not all survey participants.

In total, **3,700 unique businesses** responded to the survey, representing **16,150** business locations that employ nearly **540,000** workers (representing a median of 32 full- or part-time individuals per business). The breakdown of region and major industry group is below.
